Guarantee

YOUR ability to create CapturedDiscipline® will exceed your expectations!

The CapturedDiscipline® Safe is an effective tool for reducing or eliminating relapses. If you used your CapturedDiscipline® Safe to quit smoking, remember that the manufacturers of virtually all other smoking cessation products downplay, or do not mention the fact that their product does not guarantee that you will remain a non-smoker. These manufacturers, for obvious reasons, do not say: "Relapses will probably occur, and purchasing another supply of our product or service (nicotine replacement, prescription pills, hypnotism, shots, doctor visits, etc.) will be required."

CapturedDiscipline® on the other hand makes the following statement:

"CapturedDiscipline® will reduce or eliminate the number of relapses you experience. Additionally, if and when a relapse occurs, your CapturedDiscipline® Safe is there, in your home, fully paid for, allowing you to immediately begin to fight a relapse (or even the thought of a relapse), with no additional-repeat purchases required."

After CapturedDiscipline® has enabled you to defeat an unhealthy habit, you can loan or give your CapturedDiscipline® Safe to a loved one, a friend, co-worker, employee, patient, even a total stranger. He or she will be forever grateful to you.
